

For Immediate Release

Atlanta, GA: Cyber Leadership and Strategy Solutions (CLASS-LLC) is hosting the 7th Cyber Strategy Retreat Summit at the Buckhead Club in Atlanta, Georgia on July 13th and 14th.

The Cyber Strategy Retreat is not your typical security event. Instead of focusing on securing technology, the annual summit presents executive panels, roundtable discussions, and keynote presentations from Dave Tyson, Cathryn Marshall, Lee Haney, and Keyaan Williams to explore corporate practices and strategies that reduce risk and increase profitability.

“Everyone is aware that the volume of cyber attacks in the U.S. and globally are on the rise. These attacks are posted across business, technology, and cyber media outlets. However, the mainstream media coverage rarely digs into the root causes of the problem. The continual barrage of breaches and cyber incidents continues because business executives and board directors rarely engage in strategic conversations about how to use cybersecurity to limit problems and improve response when things go wrong.” Williams explains.

“Technology will not solve the cybersecurity without support from effective people and processes that are supported by good strategic management,” Williams continues.

“An amazing group of speakers has joined me on my mission to get more people to “Rethink Cybersecurity.” From board directors to business owners, the content presented and the peer networking available at the premier business club in Atlanta will make attendance worth the time.”

Topics of the Panel discussions will include:

Crisis Communication

Leveraging Cybersecurity to Protect Corporate Value

Cyber Risk Appetite: How do you establish it, and why does it matter?

Diversity in Business and Cybersecurity

In addition to the panel discussions, the keynote speakers are:

Dave Tyson, President & Partner, Apollo Information Systems

Cathryn Marshall, CEO, Virtual Wealth Inc

Lee Haney, CEO & Founder, Haney Nutrition
