

## Cybersecurity Subject Matter Expert to Deliver a Continuing Legal Education Seminar for the Georgia Asian Pacific American Bar Association on Managing Confidential Digital Information

### For Immediate Release

**Atlanta, GA: On September 3, 2020**, Cyber Leadership and Strategy Solutions (CLASS-LLC) Founder/President, Keyaan J. Williams, MBA will conduct a continuing legal education session for the Georgia Asian Pacific American Bar Association (GAPABA), sponsored by their Solo/Small Firm Committee.

“Attorneys often handle confidential digital information for their clients; however, the profession is not heavily regulated like financial services or critical infrastructure. Attorneys must understand the risk to their data and the best practices for managing that risk. There is an ethical duty to protect this electronically stored information (ESI) under Rule 1.6 of the ABA Model Rules of Professional Conduct. This ESI is increasingly threatened if law firms are complacent with their cybersecurity practices,” explains Williams.

“In the current environment, where cybersecurity attacks continue to escalate, poor data management practices could lead attorneys to allow inadvertent or unauthorized access to information relating to the representation of a client,” says GAPABA Solo/Small Firm Committee Co-Chair, Allen Chang, Candor Legal. “GAPABA and our SSF Committee are committed to ensuring that our members and colleagues have access to timely information that they need to protect sensitive client information from malicious cybersecurity breaches. We are eager to provide our members with expert training and advice from Keyaan and his company, CLASS-LLC, because it is imperative to keep clients and law firms digitally secure.”

“Cybersecurity relates directly to the goals of professionalism required in the practice of law. Each of CLASS-LLC’s modules in the Cybersecurity Essentials series explores the knowledge, skills, and capabilities required for compliance with the requirements outlined in Formal Opinion 477 and Formal Opinion 483 from the Standing Committee on Ethics and Professional Responsibility at the American Bar Association,” continues Keyaan.

4:30pm – 5:15pm Event start Introductions;  
Managing Confidential Digital Information
